

## Simonson's Salon & Spa Minneapolis Announces Medical Director, SkinPen Microneedling And Environ Skin Care

MINNEAPOLIS, MN – Industry leader Simonson's Salon and Spa is excited to announce the appointment of Dr. Jennifer Harrington as their Medical Director. "Our professional alliance with Harrington & Associates gives both our organizations the opportunity to collaboratively realize a whole new level of aesthetic wellness for the guests/patients we serve," says Kyle Simonson, CEO of Simonson's Salon and Spa.

Dr. Jennifer Harrington is an accomplished board-certified plastic and reconstructive surgeon who leads the plastics surgery team at the North Memorial Medical Center while managing her own private practice. This mutually beneficial coalition is the brainchild of the two business owners whose chief ambition is to safely administer the most efficacious aesthetic procedures available. "One of the most exciting aspects of having Dr. Harrington as our Medical Director is the opportunity to offer med spa treatments and products previously available only in a doctor's office," says Simonson.

In March, Simonson's introduced 'Microneedling with SkinPen' by Bellus Medical. It's the fastest growing advanced skin rejuvenation therapy on the market; remarkably effective in the treatment of **Scars, Large Pores, Wrinkles, Lax Skin, Sun-Damage and Uneven Skin Tone**. Microneedling stimulates your skin's natural ability to produce new collagen and elastin by creating microscopic channels. It is FDA cleared and can be safely used on all skin types. Plus, there's little to no downtime. "Simply put, this treatment works like no other! The results are nothing short of amazing and can be seen in as little as 7-14 days following the procedure," says Simonson. A series of three treatments, 30 days apart, is recommended for best results.

Simonson's also welcomes ENVIRON - a physician-only face and body skin care brand - to their premium offerings. This revolutionary line of products champions a multi-pronged attack against the visible signs of aging, photo damaged and problem skin. Dr. Des Fernandes, Environ founder and world-renowned plastic and reconstructive surgeon, pioneered the use of highly effective vitamin A doses together with antioxidants C and E to create the impressive, results-driven line of products. Environ is available in a variety of strengths and formulations and is intended for use on all ages, all ethnicities and performs equally well on both men and women.

In addition to SkinPen Microneedling and Environ products, Harrington's Physician Assistants expertly administer a variety of injectables. Dermal Fillers like Restylane Silk and Lyft, Belotero and Bellafil, neurotoxins Botox and Dysport, and prescribe Latisse and the wildly successful HCG and Phentermine diet from Simonson's Plymouth location.

### About Simonson's Salon and Spa

Simonson's Salon and Spa is an award-winning industry leader with a reputation for full-service, upscale hair, face, body and nail services and products for both men and women. Three convenient metro locations; Maple Grove, Plymouth and Coon Rapids.
