

COVID GUEST NOTICE

Effective Friday, May 28, 2021 | Please review prior to your appointment

In early May, Minnesota's Governor announced that the state would end the remaining COVID restrictions on outdoor capacity limits and indoor activities by Friday, May 28, 2021. Shortly thereafter, he announced an end to the statewide face covering/mask mandate.

After careful consideration of this new information, below is what you can expect at your next Simonson's visit:

- **FACE COVERINGS (MASKS) OPTIONAL** | Some of our team members will choose to wear a mask; some will not. Some of our guests will choose to wear a mask; some will not. We understand everyone has deeply personal beliefs guiding these decisions. We respect everyone's choice to decide for themselves without judgement. If you require a technician who is agreeable to wearing a mask for your service, please schedule your appointment by telephone and make your wishes known to the GSR. We'll make every effort to accommodate your request.
- **VACCINE STATUS** | As a company, we will not ask our guests nor our team to disclose their vaccination status. We ask that guests respect our team's personal and private health choices. Inquiries of this nature will not be permitted. **NO EXCEPTIONS.**
- **OTHER COVID RESTRICTIONS** | According to the Governor, these expire, including social distancing, on Friday, May 28th.
- **PUBLIC HEALTH** | Our team will continue to undergo a health screening prior to their shift. All work stations will be cleaned and sanitized between each guest in accordance with all applicable Board of Cosmetology guidelines. The disinfection protocols in place ensure a safe and healthy environment, including the use of EPA registered disinfectants. Prior to beginning your service, your technician will thoroughly wash their hands and/or use hand sanitizer.
- **NOT FEELING WELL** | If you are under the weather or feel ill in any manner, please reschedule your appointment once your symptoms have passed and you're feeling better. Our team members reserve the right to refuse service to someone if they feel it presents a personal health risk.

The Simonson's Salon & Spa team thanks you for patronage over the last 38 years, and your patience over the last year. Safety and efficacy have always been two of our top priorities. The beauty profession is regulated by the Board of Cosmetology. Simonson's meticulously follows the Board of Cosmetology's sanitation rules and regulations making us one of the safest places to receive personal care services.

We look forward to seeing you again soon! In service, **The Simonson's Salon & Spa Team**
