

## Brow Lamination FAQ

### BENEFITS

#### Q. What are the benefits of a Brow Lamination?

A. This treatment gives your brows a symmetrical, full and defined appearance that is further refined with a brow tint. It is a great solution for:

- Thinning brows that may occur with age.
- Gaps in your brows from over tweezing or over waxing.
- Unruly hairs that tend to go different directions despite brushing or using product.
- A lack of shape or unevenness.

#### Q. How often do I need to have a Brow Lamination?

A. Results can vary but typically last for 6-8 weeks.

### MAINTENANCE

#### Q. What is the best way to care for my Brow Lamination post treatment?

A. For the first 48 hours post-procedure, avoid the following:

- Touching brow/eye area
- Using make-up removers
- Exfoliating around the eyes
- Retinols, Vitamin-A's, AHA's, BHA's, steroid creams or skin thinning creams.
- Exposure to water, sweat, and steam from showers, saunas, dishwashers or ovens.
- Sleeping on your face, side or wearing eye masks to prevent disturbing the brow shape.

#### Q. What type of maintenance is recommended after a Brow Lamination?

A. When wetting (after the initial 48 hours)

- Gently brush the brow hairs back in place.
- Use a styling and nourishing product on the brows daily to maintain the health and condition of the brows.
